PROFESSIONAL SUMMARY

Computer Science Engineering student with strong knowledge in Python, Machine Learning, SQL, and Data Structures. Experienced in developing AI/ML-based projects including predictive analytics and data-driven applications. Skilled in model training, data preprocessing, and full-stack development with hands-on experience in Django, MySQL, and GitHub. Passionate about solving real-world problems using Artificial Intelligence and continuously learning emerging technologies in AI and software development.

TECHNICAL SKILLS

Programming Languages: Python, Java, C
Databases: SQL (MYSQL)
Operating System: Windows, Linux
Version Control: Git, GitHub

PROJECTS

Bitcoin Price Prediction

[GitHub](#)

- Built a prediction system using ML (SVM, Linear Regression, ARIMA), achieving 98% accuracy with LR and 96% with ARIMA on a dataset of 476 records.
- Applied SPCE (Subspace Learning) to reduce dimensionality from 6 to 4 features, improving model accuracy by +12% and reducing dataset noise.
- Evaluated models using MSE and accuracy metrics, validating LR/ARIMA as high-performance models for financial time-series prediction over SVM (70% accuracy).

Resume Builder System

[GitHub](#)

- Developed a full-stack web application using Python (Django) and MySQL enabling users to generate professional resumes by inputting education, skills, and experience via structured forms.
- Implemented AES-256 (CTR mode) encryption with PyAES and PBKDF2 key derivation to securely store all generated resumes server-side, with decrypt-on-download functionality.
- Rendered dynamic resume layouts using Matplotlib with customizable fonts, structured sections, and photo embedding; resized outputs to standard document dimensions (1222×2601 px) via OpenCV

EDUCATION

Bachelor of Technology in Computer Science

2022 - 2026

Siddhartha Institute of Engineering and Technology

CGPA: 8.3/10

Senior Secondary Education

2020 - 2022

DR. B.S.R. Junior College

Percentage: 84.3%

CERTIFICATES

- Python Programming - Geeks for Geeks
- Python Fundamentals - Infosys Springboard
